Date: Monday, February 27, 2017 7:29:12 PM

I received notice of MUR#7217 today. The aircraft which was reference in the charge is indeed owned by Aero Newton, inc. It is and has been leased to Aero Fight Club of Las Cruces for past two years. In accordance with the lease agreement the flight club has total control of the aircraft to include how it is utilized. The lease provides that it can not be used illegally. A membership in the flight club provides for the private use of the aircraft by each member. I have verified that a member of the flight club had the aircraft in question on a flight November 7, 2016 through November 8, 2016.

M. Douglas Newton
President,
